Deknudt is a family owned and Belgian based mirror maker brand, that develops and produces premium, precision crafted mirrors. Since 1946, we unite functional perfection with **unseen designs** for great interiors. Our mirrors are created by our in-house designers, or in close and respectful cooperation with international designers. Our **Master mirror makers** proudly produce them using only the best European glass.

Your mirror is a valued element in your home. Consciously and unconsciously you will see it every day. It is a part of your interior and since 2022, we offer solutions for your outdoor living space as well. A mirror contributes to creating the **atmosphere** which makes you feel at home. It **catches and reflects light** and so helps you to create the feeling of more space. It highlights your favourite corner in a unique way. It will **make you look great** before you go out.

We are inspired by aesthetics and motivated by **quality**. We guarantee that quality with a 7 year warranty on each mirror that we produce. When it comes to mirrors, we are very pleased to be at your service.

# ABOUT US

# Master mirror makers

You will find Deknuidt Mirrors all over the world. Since 3 generations, we make our mirrors in our authentic atelier in Deerlijk, a small village in Belgium. Every single mirror goes through the hands of our skilled and experienced craftsmen that we proudly refer to as our Master mirror makers.

Our goal is for our mirrors to grow old with you.

That's why we only use the best European glass. Our ISO certified company combines traditional crafts with the most recent technologies to create our collection of unseen mirrors for great interiors.

# Design studio

Designers are the heart of our company and the start of every new idea. From the first pencil sketch to a finished mirror.

Next to our in-house designer Esther, we are proud of our many partnerships with international designers.

Discover their stories on our website.

# Care instructions

See website [deknuDTmirrors.com/faq](https://www.deknuDTmirrors.com/faq)

## 01. Cleaning the mirror

The best way to clean your mirror is to polish it with a cloth that was slightly moistened with hot water. Then rub it dry and your mirror will shine like it used to. You should avoid the use of glass cleaning products. They are too aggressive for the reflecting layer of silver.

## 02. Storage

Store the mirrors in an upright position and in the original packaging.

## 03 Label

Do not stick any labels on to the frame of the mirror. Attach them to the mirror glass instead. This will allow you to peel off the label more easily.

# Suspension system

See website [deknudtmirrors.com/faq](http://deknudtmirrors.com/faq)

Depending on the suspension system, the matching accessories and suspension instructions are always included in the packaging of the mirror.

You will find helpful videos and advice on our website on our faq page and on the product page of your mirror.

Replacing mirrors without drilling new holes is now possible with our flexible and fast, easy suspension system. Check our website for more information.
